

WELCOME TO THE TRAA

Dedication Today for Tomorrow

“For the enhancement, protection and promotion of a viable, multi-species fishery within the Thames River watershed.”

TRAA Trout Hatchery

Brown Trout Eggs Arriving Soon!

The TRAA trout hatchery is a popular activity of the TRAA as it's a great teaching tool with regard to the life cycle of a trout. Those involved with the hatchery get to see firsthand the development stages of the egg and the fry before their final release destinations to area streams.

Volunteers attend to the operation every day to maintain the health and well-being of the trout. As the saying goes, many hands make light work.
